

Everything Everyone Should Know About the Great White Shark

“Who is the Great White Shark?”

This booth focuses on the Carcharodon Carcharias: the Great White Shark. The installation offers information on every topic about the Great White Shark from their anatomy and diet to the problems they face and the solutions to the problems.

Once you approach the booth, you are bombarded with facts and information. You can play “Card Shark,” our card game where the cards have information on them about Great Whites. There is also a model of a Great White Shark and some cultural artifacts, with the Jaws theme playing in the background. Questions and discussion about the Great White are welcomed and encouraged with our Graffiti Space. The Graffiti Space is an area where visitors to our booth can write or draw in response to what they have experienced.
