Dear Friend,

Are you interested in supporting STEAM opportunities in Jacksonville?

Do you want qualified Jacksonville graduates ready for STEAM fields?

Jacksonville Science Festival (JSF) has been bringing excitement to STEAM for 12 years. All of our efforts are focused on equity and justice in STEAM education during our yearly FREE Family event!

We need your support for the 12<sup>th</sup> annual Jacksonville Science Festival, April 11, 2024!

We cannot do it without you!!!

***“Give back to the world at least what you’ve received.” – Albert Einstein***

Warm regards,

*Nadia Humides*

### NEW OPPORTUNITY for JSF 2024!

You or your company can sponsor our new “Ville” areas – Choose the land you want to Sponsor and include it on your existing sponsorship for an **additional \$1,200 OR** complete a **new sponsorship** of a “Ville” for **\$2,000**. Details are listed below under *Giving Levels*.

TinkerVille

ArtVille

QuarryVille

ChalkVille

ProcessVille

MuralVille

Find out what we are all about...and how you can help!

## Who We Are...

The Jacksonville Science Festival is a student-driven, city-wide Science Festival committed to equity and justice in STEAM education. The way we view **equity and justice** in education is **all students, not only an elite group**, learning the critical thinking skills necessary for advancement in the 21st century. Students can be limited by their parents' ability to provide and by the education system's definition of a "gifted" learner. **We stand behind educational and recreational opportunities being free or having scholarships available for low income students and those who may learn differently.** This approach works greatly to close the gap that has formed separating the privileged from the under-allowed.

## What we do...

JSF provides K-12 students in Duval County and surrounding regions, regardless of the school they attend, a collaborative event where THEY are the super-stars and team up with industry experts, universities, & local businesses. The students create and present STEAM related, interactive booths to the community during the three-day Festival. JSF draws **over 6,000** people during our programs and 3-day festival increasing foot traffic to the areas around Jacksonville and FSCJ South Campus; bringing community organizations, businesses, colleges, students and schools together.

## What's coming up in 2024...

Duval County Public Schools

*“JSF is a STEAM event with the goal of promoting educational equity in Jacksonville. This aligns perfectly with FSCJ’s strategic goal of promoting access and equity in Northeast Florida. FSCJ is excited to partner with JSF and the opportunities it will bring our community.”*

**- Dr. Jerrett Dumouchel—Florida State College at Jacksonville South Campus**

*"The Jacksonville Science Festival is an awesome opportunity for school aged youth to be challenged, it pushes them to think through the scientific method and develop their ideas into something tangible. The festival fosters an environment of healthy competition and provides a foundation which promotes a visionary perspective among the next generation.*

*Members of my command have volunteered as judges for the past two years and will continue to do so for as long as they'll have us. It's the least we could do in order to contribute to an event that makes such a positive impact on children in our community. If there were more local events of this caliber, our city would be the better for it."*
